Volume 24 General Index

ABBASS, A. *See* BLOOM, S R, LEE, Y C, *et al.*

ABITOL, J L. *See* LEHY, T, MIGNON, M, *et al.*

Acarbose, pectin, acarbose/pectin and placebo, effect on postprandial reactive hypoglycaemia after gastric surgery, **798**

Achalasia of cardia, choice between dilatation and surgery in (*Leading article*), **1013**

—— —— ——, pneumatic dilation in, **1020**

ADAM, R D. *See* BLACKWELL, J N, HANNAN, W J, *et al.*

Adenoma, colonic, presence of, relation to intracolonic environment, **876**

Adenomatosis coli, familial, upper gastrointestinal tract polyps in, **333**

Adenosine triphosphatase inhibition, production of diarrhoea in tropical sprue by, possible role of faecal free fatty acids in, **300**

—— —— (ca^{2+}-ATPase), phytase, and alkaline phosphatase, distribution and properties in enterocytes from normal and vitamin D-deficient rats, **886**

ADRIAN, T E. *See* BESTERMAN, H S, CHRISTOFIDES, N D, *et al.*

AGARWAL, S K. *See* WARD, H, JALAN, K N, *et al.*

AGGETT, P J. *See* PENNY, W J, MAYBERRY, J F, *et al.*

AGUILAR RAMIREZ, J R. *See* GREENFIELD, C, AGUILAR RAMIREZ, J R, *et al.*

AHLMAN, H. *See* NILSSON, O, CASSUTO, J, *et al.*

ÅHRÉN, C. *See* PHILIPSON, B M, KOCK, N G, *et al.*

Alcohol, chronic pancreatitis induced by, pancreatic polypeptide secretion, endocrine and exocrine function and structural damage in, comparative study of, **642**

——, effect on integrity of small intestinal epithelium, **399**

Alcoholic fatty liver, hepatic γ-glutamyltransferase activity in, comparison with other liver enzymes in man and rat, **625**

—— rats with fatty liver, biliary excretion of enterokinase in, **16**

Aldosterone, blood volume expansion in cirrhosis related to, before and during early ascites formation, **761**

AL-DUJAILI, E A S. *See* KENNEDY, H J, AL-DUJAILI, E A S, *et al.*

ALEXANDER-WILLIAMS, J. *See* HAWKER, P C, GIVEL, J C, *et al.*

——. *See* WHITE, C M, POXON, V, *et al.*

Alkali secretion by rabbit gastric fundus *in vitro*, effect of non-steroidal anti-inflammatory drugs and prostaglandins, **784**

—— ——, duodenal, and gastric acid secretion, simultaneous measurement by *in situ* titration in health and disease, **1126**

Alkaline phosphatase, Ca^{2+}-ATPase, and phytase, distribution and properties in enterocytes from normal and vitamin D-deficient rats, **886**

ALLAN, A, and JEWELL, D P: *In vitro* model for the assessment of luminal factors on rectal mucosa, **812**

ALLAN, R N. *See* HAWKER, P C, GIVEL, J C, *et al.*

ALSTEAD, E M, RYAN, F P, HOLDSWORTH, C D, ASHTON, M G, and MOORE, M: Ranitidine in the prevention of gastric and duodenal ulcer relapse, **418**

ALTIN, M, RAJKOVIC, I A, HUGHES, R D, and WILLIAMS, R: Neutrophil adherence in chronic liver disease and fulminant hepatic failure, **746**

ALVAREZ, F. *See* SCOTTO, J, HADCHOUEL, M, *et al.*

Amino acids and dipeptide (glycyl-l-phenylalanine), small intestinal absorption in pancreatic insufficiency, **818**

—— ——, glucose and free fatty acids, splanchnic exchange of, in chronic inflammatory bowel disease, **1161**

AMMON, H V. *See* SLOTA, T, KOZLOV, N A, *et al.*

Anaemia, pernicious, gastroscopic screening in 80 patients with, **1141**

Anal sphincter, external, electrical activity at different ages in childhood, **218**

Analgesics, ingestion of, preceding relapse in ulcerative colitis, **187**

ANDERSON, G H. *See* BRUIJN, K M DE, BLENDIS, L M, *et al.*

ANDERSON, R J L. *See* CUSHIERI, A, BAKER, P R, *et al.*

ANDREWS, J. *See* JONES, B J M, LEES, R, *et al.*

ANDREWS, N J, RINNO-BARMADA, S, BURDETT, K, and ELDER, J B: Effects of porcine gastric fundic factor, somatostatin, substance P, glucagon, neurotensin, bombesin, VIP, motilin and pentagastrin on jejunal glucose absorption in the rat, **326**; *Errata* **686**

ANDREWS, P L R. *See* TAYLOR, T V, HOLT, S, *et al.*

Aneurysms of gastroduodenal artery caused by chronic pancreatitis, embolisation of (*Case report*), **1094**

ANNIBALE, B. *See* FAVE, G DELLE, KOHN, A, *et al.*

ANSALDI, N. *See* DEMARCHI, M, CARBONARA, A, *et al.*

Antibiotics, colitis due to *Clostridium difficile* associated with, relapse in, and persistence of organism during vancomycin therapy, **206**

Antigen, dietary, acute and chronic immunological response to, **831**

Antigens, HLA, and atopy in children with coeliac disease, **306**

——, ——, in coeliac disease associated with malignancy, **925**

Anti-inflammatory drugs, non-steroidal, and prostaglandins, effect on alkali secretion by rabbit gastric fundus *in vitro*, **784**

Antiplatelet therapy, value in coagulopathy of peritoneovenous shunts, **412**

α_1-Antitrypsin, reliability as endogenous marker for intestinal protein loss and use in Crohn's disease, **718**

Aphthoid ulcers, colonic, in patient with intestinal tuberculosis, radiological demonstration of (*Case report*), **453**

Apudomas, pancreatic, secreting neurotensin and VIP, 2 patients with (*Case report*), **448**

(^{14}C)-Arachnidonic acid, biosynthesis of lipoxygenase and cyclooxygenase products by colonic mucosa from, **1176**

ARMSTRONG, C P. *See* DIXON, J M, ARMSTRONG, C P, *et al.*

Ascites formation, early, aldosterone-related blood volume expansion in cirrhosis before and during, **761**

Ascitic fluid collagen, pathogenic role in coagulopathy of peritoneovenous shunts, **412**

ASHTON, M G. *See* ALSTEAD, E M, RYAN, F P, *et al.*

Aspirin, gastric bleeding induced by, comparison of prostaglandin E_2 and ranitidine for prevention of, **89**

ATKINS, D. *See* CHAN, S D H, and ATKINS, D

ATKINSON, M. *See* FELLOWS, I W, OGILVIE, A L, *et al.*

Atopy and HLA antigens in children with coeliac disease, **306**

Autoantibodies to gut hormone secreting cells as markers of peptide deficiency, **427**

AXON, A T R, and COTTON, P B: Endoscopy and infection, **1064**

——. *See also* HAMILTON, I, WORSLEY, B W, *et al.*

——. *See also* O'CONNOR, H J, and AXON, A T R

BACKMAN, A. *See* VERKASALO, M, TIILIKAINEN, A, *et al.*

Bacteraemia, endocarditis, and gastrointestinal instrumentation (*Progress report*), **1078**

Bacteria and bile acids in colorectal carcinogenesis (*Leading article*), **871**

BAKER, P R. *See* CUSHIERI, A, BAKER, P R, *et al.*

BALASUBRAMANIAN, K A. *See* TIRUPPATHI, C, BALASUBRAMANIAN, K A, *et al.*

BALSLEV, I. *See* RICKERS, H, CHRISTIANSEN, C, *et al.*

BAMBER, M, THOMAS, H C, BANNISTER, B, and SHERLOCK, S: Acute type A, B, and non-A, non-B hepatitis in a hospital population in London: clinical and epidemiological features, **561**

——. *See also* WELLER, I V D, KARAYIANNIS, P, *et al.*

BANNISTER, B. *See* BAMBER, M, THOMAS, H C, *et al.*

BARBER, D C. *See* PALMER, K R, BARBER, D C, *et al.*

BARBERA, C. *See* DEMARCHI, M, CARBONARA, A, *et al.*

BASSENDINE, M F. *See* CRAXI, A, WELLER, I V D, *et al.*

BAUMANN, R. *See* BLOOM, S R, LEE, Y C, *et al.*

BCNU and 5FU combination chemotherapy, prolongation of survival of rats with dimethylhydrazine-induced colon cancer by, **1041**

BEAVIS, A K. *See* LA BROOY, S J, MALÈ, P-J, *et al.*

BEDFORD, P A. *See* SWINSON, C M, HALL, P J, *et al.*

BEEKEN, W L, ST ANDRE-UKENA, S, and GUNDEL, R M: Comparative studies of mononuclear phagocyte function in patients with Crohn's disease and colon neoplasia, **1034**

BEILBY, J O W. *See* STOCKBRUGGER, R W, MENON, G G, *et al.*

BENHAMOU, J P. *See* BERNUAU, J, DEGOTT, C, *et al.*

BENNETT, M K. *See* PHILP, T, GUNNING, A J, *et al.*

Benzimidazoles, substituted, effect on acid secretion in isolated and enriched guinea pig parietal cells, **557**

N-Benzoyl-L-tyrosyl-p-aminobenzoic acid. *See* BT-PABA

BERGE HENEGOUWEN, G P. *See* WERF, S D J VAN, NAGENGAST, F M, *et al.*

BERKOWICZ, A. *See* ELMGREEN, J, BERKOWICZ, A, *et al.*

BERNARD, O. *See* SCOTTO, J, HADCHOUEL, M, *et al.*

BERNARDI, M, TREVISANI, F, SANTINI, C, PALMA, R DE and GASBARRINI, G: Aldosterone related blood volume expansion in cirrhosis before and during the early phase of ascites formation, **761**

BERNUAU, J, DEGOTT, C, NOUEL, O, RUEFF, B, and BENHAMOU, J P: Non-fatal acute fatty liver of pregnancy (*Case report*), **340**

BERRY, A R, DAVIES, G C, MILLAR, A M, and TAYLOR, T V: Changes in the biophysical properties and ultrastructure of lungs, and intrapulmonary fibrin deposition in experimental acute pancreatitis, **929**

BERTHOUD, S. *See* MALÈ, P J, TOLEDO, F DE, *et al.*

BESTERMAN, H S, CHRISTOFIDES, N D, WELSBY, P D, ADRIAN, T E, SARSON, D L, and BLOOM, S R: Gut hormones in acute diarrhoea, **665**

BIELAŃSKI, W. *See* KONTUREK, S J, KWIECIEŃ, N, *et al.*

BIEMOND, I. *See* CRAMA-BOHBOUTH, G, BOSMAN, F T, *et al.*

——. *See* MEARIN, M L, BIEMOND, I, *et al.*

Bile acids and bacteria in colorectal carcinogenesis (*Leading article*), **871**

—— ——, glycine and taurine conjugates of, postprandial plasma concentrations in healthy subjects, **249**

—— duct, calculi in, ursodeoxycholic acid treatment of, trial of, **609**

—— ——, common, total and subtotal replacement of, effect of transhepatic silicone tube stenting, **756**

—— flow and bile lipid secretion in rats, effects of secretin, pancreozymin, OP-CCK and glucagon, **803**

——, gall-bladder, cholesterol saturation of, diurnal variation in, **950**

——, hepatic and gall-bladder, of patients with cholesterol gall stones, nucleation of cholesterol monohydrate crystals from, **836**

——, infected, potential hazards of intraoperative cholangiography in patients with (*Letters*), **772**

—— lipid composition, effect of synthetic oestrogens and progestagens in oral contraceptives, **253**

—— salts, gastric mucosal damage induced by (*Letter*), **594**

—— ——, —— —— —— ——, and histamine receptor antagonists, **33**

Biliary cirrhosis, primary, geographical clustering and symptomatic onset seasonality in, **940**

—— ——, ——, D-penicillamine and medroxyprogesterone for, evaluation from collagen synthesis enzymes and type III procollagen aminopropeptide, **136**

—— excretion of enterokinase in alcoholic rats with fatty liver, **16**

—— pathways and gall bladder, guinea pig, peptide immunoreactive nerves and cells of, **1186**

—— tree, stones in, management of (*Leading article*), **599**

Biopsy, liver, transjugular, experience with, **1057**

BIRNIE, G G, QUIGLEY, E M, CLEMENTS, G B, FOLLETT, E A C, and WATKINSON, G: Endoscopic transmission of hepatitis B virus (*Case report*), **171**

BLACKWELL, J N, HANNAN, W J, ADAM, R D, and HEADING, R C: Radionuclide transit studies in the detection of oesophageal dysmotility, **421**

Bleeding oesophageal varices, endoscopic scleropathy for, factors affecting success of, **946**

BLENDIS, L M. *See* BRUIJN, K M DE, BLENDIS, L M, *et al.*

Blood flow, gastric mucosal, reduction by somatostatin in normal subjects but not in cirrhosis of liver, **148**

——, peripheral, T lymphocytes and subsets in inflammatory bowel disease, **99**

—— platelet. *See* Platelet

—— volume expansion related to aldosterone in cirrhosis before and during early ascites formation, **761**

BLOOM, S R, LEE, Y C, LACROUTE, J M, ABBASS, A, SONDAG, D, BAUMANN, R, and WEILL, J P: Two patients with pancreatic apudomas secreting neurotensin and VIP (*Case report*), **448**

——. *See also* BESTERMAN, H S, CHRISTOFIDES, N D, *et al.*

——. *See also* BRYANT, M G, BLOOM, S R, *et al.*

——. *See also* CAI, W, GU, J, *et al.*

——. *See also* JONES, H W, LENDRUM, R, *et al.*

BLUM, A L. *See* MÜLLER-LISSNER, S A, FIMMEL, C J, *et al.*

BOCHENEK, W J. *See* ROMANSKI, K, W, and BOCHENEK, W J

Bockus, Dr Harry, appreciation of, **351**

BODENSTEIN, H. *See* KARBACH, U, EWE, K, *et al.*

BOESBY, S, MAN, W K, MENDEZ-DIAZ, R, and SPENCER, J: Effect of cysteamine on gastroduodenal mucosal histamine in rat, **935**

——. *See also* WALLIN, L, MADSEN, T, *et al.*

Bombesin, effect on gastrin release and gastric acid secretion in duodenal ulcer, **231**

Bone mineral content and vitamin D after intestinal bypass operation for obesity, **67**

—— —— —— *in vivo* and *in vitro* in primary biliary cirrhosis, effect of cyclosporin A, **A970**
Suprarenals, role in duodenal ulcer?, **A470**
SWAIN, C P, *et al.*: Controlled trial of Nd YAG laser photocoagulation in bleeding peptic ulcers, **A967**
——, *et al.*: Endoscopic colostomy, gastrostomy, and anastomosis, **A1004**
——, *et al.*: 'Hot squeeze' bipolar forceps: a more effective endoscopic method for stopping bleeding from large vessels in the gastrointestinal tract, **A460**
——, *et al.*: Stresses of vomiting: a study of the pathophysiology of the Mallory Weiss tear, **A987**
——, *et al.*: Thermal *vs* photoacoustic fragmentation of biliary calculi using continuous wave and giant pulse lasers, **A486**
——, *et al.*: Which electrode? A consumer's guide to endoscopic electrocoagulation of upper gastrointestinal bleeding, **A474**
Swallows, wet, stimulation of abnormal oesophageal contractions in oesophageal motility disorders by, **A357**

TAYLOR, B A, *et al.*: Inhibitory effect of peppermint oil on gastrointestinal smooth muscle, **A992**
TAYLOR, T V, and PULLAN B R: Initial experience with a free floating intragastric balloon in the treatment of morbid obesity, **A979**
——, *et al.*: Gastric emptying after anterior lesser curve myotomy and posterior truncal vagotomy, **A477**
TERRY, S I, and SERJEANT, G R: Is 'intrahepatic cholestasis in sickle haemoglobinopathies' typical cholestasis?, **A1005**
β-Thalassaemia major, hepatitis B virus infection in children treated in UK for, **A505**
THOMAS, H C, *et al.*: Analysis of the molecular state of HBV-DNA in the liver of patients with chronic hepatitis or primary liver cell carcinoma, **A484**
THOMAS, W E G, *et al.*: Positive correlation between duodenogastric reflux and gastric dysplasia, **A476**
THOMPSON, D G, *et al.*: Oral microflora affect postprandial exhaled breath hydrogen concentrations, **A978**
THOMPSON, J N, *et al.*: Obscure gastrointestinal bleeding of small bowel origin, **A986**
THORNTON, J R, and HEATON, K W: Beneficial effect of moderate alcohol intake on high-density lipoprotein cholesterol and the cholesterol saturation of bile, **A475**
——, *et al.*: Empyema of the gall bladder – neglected but often fatal, **A503**
Thromboxane B_2 synthesis by gastric mucosa, carbenoxolone inhibition of, **A480**
TOMKINS, A: Nutritional cost of protracted diarrhoea in young Gambian children, **A495**
TPN catheter sepsis, reduction by catheter tunnelling and nutrition nurse, prospective study, **A495**
Transaminase test for gallstones in acute pancreatitis, more sensitive than ultrasound?, **A502**
Transpapillary biopsy, endoscopic, light and electron microscopial findings and clinical significance, **A492**
TRAYNOR, O J, and WOOD, C B: Histochemical changes in colonic mucosubstances during carcinogenesis, **A1008**
TROTMAN, I F, and MISIEWICZ, J J: Are raised intraluminal pressures found in diverticular disease?, **A481**
Tumours and pseudotumours of duodenal papilla, **A988**
——, endocrine, SMS 201-995 for home treatment of, **A984**

Ulcer. *See under* Duodenum; Gastric; Peptic
Ultrasonography and oral cholecystography, discrepancies between, and recurrence rates after gall-stone dissolution, British Gall-Stone Study Group trial, **A1006**
——, endoscopic, in assessment of gastro-oesophageal collateral veins in portal hypertension, **A459**
——, ——, in staging of gastric cancer, **A493**
Ultrasound detection of common bile duct stones after cholecystectomy, comparison with ERCP, **A988**
—— device, Döppler, endoscopic, in gastrointestinal haemorrhage, clinical experience with, **A968**
——, Döppler, in measurement of blood flow patterns in oesophageal varices, **A459**
—— in assessment of colonic motility in irritable bowel syndrome, **A485**
——, real time, observations of gastric antral contractions and fluid movement, **A370**
UMPLEBY, H C, *et al.*: Adverse features of obstructing colorectal carcinoma, **A1010**
URBANO, D, *et al.*: Radiotelemetric continuous oesophageal pH monitoring in infants, **A357**
Ursodeoxycholic acid treatment of gall-stones, efficacy for dissolution and rate of acquired stone opacification, **A999**
UTTENTHAL, L O, *et al.*: Acute and short term effects of intestinal alpha-glucosidase inhibition on gut hormone responses in man, **A461**

Vagal regeneration, anatomical and functional, assessment of, **A477**
—— responses, impairment in reflux oesophagitis, **A468**
Vagotomy, different types of, effect of posture on glucose absorption and insulin secretion after, **A367**
——, truncal, and pyloroplasty, perturbation of gastric and gall-bladder emptying relationship by, **A979**
VALORI, R M, *et al.*: Inhibition of the human fasting motor complex by prolonged but intermittent mental stress, **A354**
Varices, bleeding, 3½ year survey of unselected patients, **A987**
——, gastric, supplied from oesophagus?, **A459**
——, oesophageal, bleeding, cirrhosis with, influence of endoscopic sclerotherapy on course of, **A972**
——, ——, blood flow patterns in, measurement by Döppler ultrasound, **A459**
——, ——, 'downhill', veno-occlusive syndrome with, response to steroids, **A987**
——, ——, endoscopic pressure measurements, response to isosorbide dinitrate, **A971**
——, ——, injection sclerotherapy for, comparison of 1 and 3

weekly intervals, **A460**
——, ——, —— —— ——, improvement in long term survival in trial of, **A971**
——, ——, rebleeding in alcoholic cirrhotics, influence of continued alcohol abuse or binge drinking, **A971**
Vasoactive intestinal (poly)peptide. *See* VIP
Vasodilators, effect on portal pressure in portal hypertension, **A971**
Vasopressin, intravenous, effect on canine colonic blood flow, **A482**
——, ——, intestinal volume, motility and electrical activity changes in response to, **A356**
Vater's papilla, tumours and pseudotumours of, **A988**
Veno-occlusive syndrome with 'downhill' oesophageal varices, response to steroids, **A987**
VENTO, S, *et al.*: Defective antigen specific (liver specific protein) suppressor cell function in autoimmune chronic active hepatitis, **A994**
VERGANI, D, *et al.*: Are low C4 levels in chronic active hepatitis inherited?, **A491**
Verner-Morrison syndrome, peptide histidine isoleucine production in, **A473**
VIDON, N, *et al.*: Influence of food and digestive secretions on metoprolol jejunal absorption, **A989**
Villous atrophy responsive to azathioprine, **A494**
—— ——, sugar tests for detection of, discriminatory potential of, **A488**
VIP immunoreactive nerves in achalasia, **A364**
VITALE, G C, *et al.*: Computerised system for 24 hour oesophageal pH recording in the ambulatory patient, **A468**
Vitamin A deficiency in Crohn's disease, **A487**
—— C treatment, effect on gastric juice nitrite and N-nitroso compound concentrations in achlorhydria, **A492**
Vomiting and nausea, electrogastrographic findings in, **A476**
——, nervous control of gastrointestinal tract during, **A366**
——, stresses of, and pathophysiology of Mallory Weiss tear, **A987**

WALAN, A, *et al.*: Four week study of the rate of duodenal ulcer healing with omeprazole, **A972**
WALT, R P, *et al.*: Daily oral omeprazole causes 8000-fold decrease of 24 hour intragastric activity, **A497**
WARD, K, *et al.*: Alcohol and colo-rectal cancer, **A981**
——, *et al.*: Isoenzymes of alcohol and aldehyde dehydrogenase in alcoholic and non-alcoholic patients, **A483**
WARD, R, *et al.*: Mucolytic properties of gastric juice from duodenal ulcer patients, **A1001**
Warfarin, non-anticoagulating, effect on induced colorectal cancer in rat, **A466**
WARHURST, G, *et al.*: Mechanisms of diarrhoea after morphine withdrawal in tolerant animals, **A991**
Water and sodium absorption, jejunal, effect of acetate and citrate, implications for oral rehydration solutions, **A991**
——, effect on bile excretion in guinea pigs receiving total parenteral nutrition, **A996**
WATT, P C H, *et al.*: Are the mucosal abnormalities of the postoperative stomach reversible?, **A975**
——, *et al.*: Long term gastric mucosal changes in medically and surgically treated duodenal ulcer, **A975**
WEIR, D G, *et al.*: Acute folate deficiency does not increase the rate of liver folate release: a mechanism for acute megaloblastic anaemia following intensive care therapy, **A497**
WESTABY, D, *et al.*: Comparison of oral metoprolol and injection sclerotherapy for long-term management of variceal bleeding in cirrhosis, **A483**
——, *et al.*: Improvement in long term survival with injection sclerotherapy – final analysis of a controlled trial, **A971**
——, *et al.*: Injection sclerotherapy of oesophageal varices: a comparison of one and three weekly intervals, **A460**
WHITEWAY, J, *et al.*: Endoscopic polypectomy for malignant polyps of the colorectum, **A465**
